**GENESIS™ LED
NOTIFICATION APPLIANCES
HORNS, STROBES, SPEAKERS**

KIDDE COMMERCIAL ADVANTAGE

The most energy-efficient notification appliances in their class, the Genesis™ LED family of horns, strobes and speakers employs patented electronics to deliver highly focused life safety solutions for new and retrofit projects.

DESIGN

Find the right Genesis appliance for every environment thanks to the sleek, compact design that conceals mounting screws and only protrudes about an inch from the mounting surface.

EFFICIENCY

Experience higher performance for lower cost thanks to the ultra-low current draw and high-efficiency LED optics, which require fewer power supplies and can be mixed with legacy xenon strobes.

INSTALLATION

Easily install your Genesis appliances with a convenient universal room-side wiring plate, slide switches for field configuration, and in-out screw terminals for quick wiring.

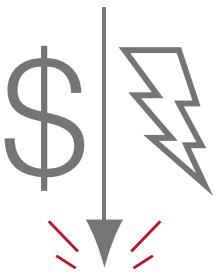

PERFORMANCE

Get exceptional performance and flexibility with Genesis appliances, thanks to field-configurable sound output levels and selectable low-current optics.

THE RIGHT PROTECTION FOR YOUR FACILITY

From neighborhood markets to community classrooms, Kidde Commercial is there to protect what matters most – people and property. The Genesis™ LED family of horns, strobes and speakers will provide a significant cost savings, reduced installation times, and a low-profile, unobtrusive design that's easy to incorporate into any facility.

ULTRA-LOW CURRENT DRAW

Save money on your projects every day with Genesis appliances.

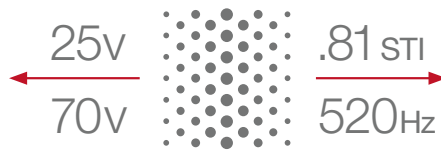

SELECTABLE LIGHT OUTPUTS

All light outputs have the same low current draw and are tested to exceed UL minimum standards.

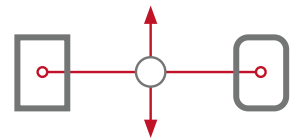

SELECTABLE AUDIO OUTPUTS

Choose between high- and low-decibel horns, and temporal or steady signaling.

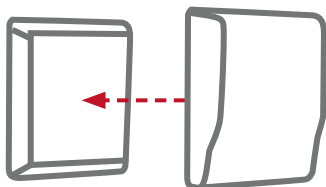

SUPERIOR SPEAKER PERFORMANCE

Speakers have selectable settings allowing 25V and 70V applications with four wattage settings in one unit. All speaker models have an excellent STI rating of .81 and are low-frequency (520Hz) capable.

BACKWARDS COMPATIBLE

Seamlessly mix Genesis LED appliances with legacy strobes on the same circuit and in the same line of sight.

INTERCHANGEABLE COVERS

Covers sold separately so you can change the color, language or marking as needed or replace damaged covers without replacing the entire appliance.

EASY INSTALLATION

Room-side wiring makes pre-installation quick and easy with diagnostics to check circuit continuity.

SMARTER PROTECTION FOR SAFER TOMORROWS

We're proud to offer the Genesis™ LED family of horns, strobes and speakers in a variety of designs to suit every application and need.

HORN-STROBES

GENESIS LED EG1

Compact wall-mounted strobes, horns & horn-strobes

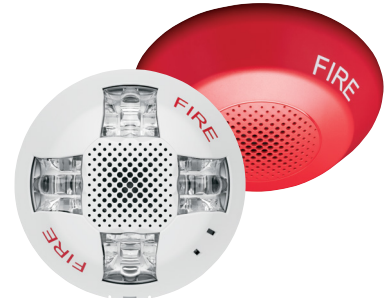

- Low-profile design, protrudes about 1" from the mounting surface
- Selectable high- and low-dB horn output
- Diagnostics Port
- Strobe current draw of 24mA across all candela settings

GENESIS LED EG4

Wall-mounted strobes, horns & horn-strobes

- Field-selectable 15, 30, 75 or 110 cd light output
- Room-side wiring with continuity check
- Diagnostics Port
- Strobe current draw of 28mA across all candela settings

GENESIS LED EGC

Ceiling-mounted strobes, horns & horn-strobes

- Field-selectable 15, 30, 75 or 115 cd light output
- Room-side wiring with continuity check
- Diagnostics Port
- Strobe current draw of 35mA across all candela settings

SPEAKER-STROBES

- Selectable 1/4, 1/2, 1, and 2 watt taps for Speakers
- Speakers capable of both 25V and 70V systems in a single model
- High-fidelity performance with excellent STI rating of .81
- Low frequency (520Hz) capable
- Room-Side Wiring Plate with continuity check
- Diagnostics Port

GENESIS LED EG4S

Wall-mounted speakers & speaker strobes

- Field-selectable 15, 30, 75 or 110 cd light output
- Strobe current draw of 28mA across all candela settings

GENESIS LED EGCS

Ceiling-mounted speakers & speaker strobes

- Field-selectable 15, 30, 75 or 115 cd light output
- Strobe current draw of 35mA across all candela settings

G4SE

G4 Strobe Expander

- Mass notification solution designed to work with Genesis LED EG4 and EG4S series appliances
- Available in amber, red, green and blue lenses

THE RIGHT PARTNER IN PROTECTION

Kidde is a world leader in the fire and life safety industry because we understand that there's more to safety than equipment and technology. We take the time to collaborate with builders, owners, architects and designers, to cultivate partnerships with community initiatives and non-profits, and to educate professionals and customers alike in fire safety.

See what's possible for your business.
